2014 Annual Report

“The Entrepreneurial Difference”

ANNUAL REPORT TO SHAREHOLDERS
OF
RENN FUND, INC.

December 31, 2014

Dear Shareholders,

2014 turned out to be an interesting year in which the Dow Jones Industrial Average and the S&P 500 both made new highs. However, smaller companies lagged behind as the Russell 2000 Index failed to match the large company indexes. We have gone through these periods before. Our net asset value per share closed at \$2.21 in 2014 versus \$2.36 in 2013. I do believe we have several “horses” that could really run in 2015.

Of most importance is Bovie Medical (NYSE:BVX). A new management team took charge in 2014, led by Robert Gershon, an industry veteran. The main task was to roll-out a revolutionary new surgical system, J-Plasma. Mr. Gershon added a whole new marketing team. I believe we will see real growth results in 2015 and hopefully a much higher stock price. We added to our position and now have 700,000 shares. I am quite optimistic about the potential here.

Flamel Technologies (NASDAQ:FLML) a specialty pharmaceutical company made a move from \$3.25 in 2013 to a high of approximately \$19 in 2014 per share closing at \$17.13 on December 31, 2014. This was based on new drug approvals by the FDA. Currently the stock is trading about \$14 per share. In early 2015 we sold one-half of our position to take a major profit. We are currently holding 100,000 shares.

AnchorFree, Inc., a privately held company had another good year in terms of new users. Historically, over 300 million people have downloaded, “Hot Spot Shield.” The company provides privacy, security, and access worldwide. AnchorFree is launching new products in 2015. The company is placing new emphasis on paid subscribers to enhance value.

iSatori, Inc. (OTC:IFIT) a consumer products company providing nutraceutical, weight loss, energy, and muscle building products had a mixed year. Weight loss products were hurt by a slow down, especially at GNC, a major customer. A new product “Bio-Gro” is showing significant growth. Hopefully, 2015 will be a much better year. Points International (NASDAQ:PCOM) had significant appreciation in 2013 into early 2014 but retreated back to \$12.79 on December 31, 2014. The company has announced a buyback program for its shares. As a leader in the loyalty industry with a concentration on airline mileage, the company continues to grow. Our Fund owns 51,300 shares.

In our semi-annual report we outlined a number of steps that could be taken to enhance shareholder value including liquidating the Fund. Your Board of Directors and investment manager continue to examine alternatives. The feeling now is that we have planted a “good garden” which we need to let mature.

Sincerely,

Russell Cleveland
President and CEO

Notes to Financial Statements
December 31, 2014

Note 1 Organization and Business Purpose

RENN Fund, Inc. (the “Fund”), is a registered, non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”).

The Fund, a Texas corporation, was organized and commenced operations in 1994 and is registered under and pursuant to the provisions of Section 8(a) of the 1940 Act.

The investment objective of the Fund is to provide its shareholders primarily with long-term capital appreciation by investing substantially in privately-placed convertible and equity securities of emerging growth companies traded on U.S. securities exchanges.

RENN Capital Group, Inc. (“RENN Group”), a Texas corporation, serves as the Investment Adviser to the Fund. In this capacity, RENN Group is primarily responsible for the selection, evaluation, structure, valuation, and administration of the Fund’s investment portfolio, subject to the supervision of the Board of Directors. RENN Group is a registered investment adviser under the Investment Advisers Act of 1940, as amended.

Note 2 Summary of Significant Accounting Policies

Valuation of Investments

All investments are stated at their estimated fair value, as described in Note 5.

Revenue Recognition

The Fund recognizes realized gain/loss in the period of the sale based upon the identified cost basis. Change in unrealized gain/loss is reflected during the period of the change. Dividend income is recorded on the record date. Interest income is recorded as earned on an accrual basis. For debentures that are late in making payments as scheduled in the note agreements, the Fund determines whether to continue accruing interest on the note based upon the current circumstances facing the companies. The Fund reserves any dividends or interest income which is deemed to be potentially uncollectible based upon an analysis of several factors used in assessing the financial condition of each company.

Cash and Cash Equivalents

As of December 31, 2014, cash and cash equivalents are at risk to the extent that they exceed Federal Deposit Insurance Corporation insured amounts. The Fund has not experienced any losses as a result of this risk. The Fund considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. As of December 31, 2014, cash equivalents were held in the Federated Prime Obligations Fund which is not covered by depository insurance.

RENN Fund, Inc.
Notes to Financial Statements
December 31, 2014

Note 2 Summary of Significant Accounting Policies, continued

Income Tax

The Fund has elected the special income tax treatment available to a “regulated investment company” (“RIC”) under Subchapter M of the Internal Revenue Code (“IRC”) which allows the Fund to be relieved of federal income tax on that part of its net investment income and realized capital gain that it pays out to its shareholders. The requirements to qualify for RIC status include, but are not limited to certain qualifying income tests, asset diversification tests and distribution of substantially all of the Fund’s taxable investment income to its shareholders. It is the intent of management to comply with all IRC requirements as they pertain to a RIC and to distribute all of the Fund’s taxable investment income and realized long-term capital gain within the defined period under the IRC to qualify as a RIC. Failure to qualify as a RIC would subject the Fund to federal income tax as if the Fund were an ordinary corporation, which could result in a substantial reduction in the Fund’s net assets as well as the amount of cash available for distribution to shareholders. Continued qualification as a RIC requires management to satisfy certain investment diversification requirements in future years. There can be no assurance that the Fund will qualify as a RIC in future years.

Federal income taxes payable on behalf of shareholders on realized capital gains that the Fund elects to retain are accrued and reflected as tax expense paid on behalf of shareholders on the last day of the tax year in which such gains are realized.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts and disclosures in the financial statements. Actual results could differ from these estimates.

Note 3 Due to/from Broker

The Fund conducts business with various brokers for its investment activities. The clearing and depository operations for the investment activities are performed pursuant to agreements with these brokers. “Due from broker” represents unsettled sales transactions. “Due to broker” represents a margin loan payable to these brokers, which is secured by cash maintained with the lending broker as collateral for the margin loan. The Fund is subject to credit risk to the extent the brokers are unable to deliver cash balances or securities, or clear security transactions on the Fund’s behalf. RENN Group actively monitors the Fund’s exposure to these brokers and believes the likelihood of loss under those circumstances is remote. At December 31, 2014, there were no amounts “due from broker” or “due to broker.”

RENN Fund, Inc.
Notes to Financial Statements
December 31, 2014

Note 3 Due to/from Broker, continued

The terms on a margin loan are governed by federal regulation and by the rules of Financial Industry Regulatory Authority (“FINRA”) and the securities exchanges. In general under Federal Reserve Board Regulation T, firms can lend a customer up to 50% of the price of a security and 90% of a United States Treasury Bill. The rules of FINRA and the exchanges supplement the requirements of Regulation T by placing “maintenance” margin requirements on customer accounts. Under the rules of the broker, equity in the account must not fall below 30% of the current market value of the securities in the account that have a market value above \$6.625 or \$2.00 per share for securities that have a market value between \$2.125 and \$6.625. The failure to do so may cause the firm to force the sale of or liquidate the securities in the account in order to bring the account’s equity back to the required level. The loan is not made for any specific term or duration but is due and payable at the brokerage firm’s discretion. Federal regulations under the 1940 Act require that the Fund maintain 300% asset coverage in relation to any borrowed amount.

During the year ended December 31, 2014, the Fund had no margin loans.

Note 4 Management Fees and Reimbursement

Pursuant to an Investment Advisory Agreement (the “Agreement”) effective May 15, 2009, RENN Group performs certain services, including certain management, investment advisory and administrative services necessary for the operation of the Fund. In addition, under the Agreement, the Investment Adviser is reimbursed by the Fund for certain directly allocable administrative expenses. A summary of fees and reimbursements paid by the Fund under either the Agreement or the prospectus is as follows:

RENN Group receives a management fee equal to a quarterly rate of 0.4375% of the Fund’s net assets, as determined at the end of each quarter, each payment to be due as of the last day of the calendar quarter. The Fund incurred \$188,721, during the year ended December 31, 2014, for such management fees.

The Investment Adviser was reimbursed by the Fund for directly allocable administrative expenses paid by the Investment Adviser on behalf of the Fund. Such reimbursements were \$42,548 during the year ended December 31, 2014.

Note 5 Valuation of Investments

Investments are carried in the statements of assets and liabilities at fair value, as determined in good faith by RENN Group, subject to the approval of the Fund’s Board of Directors. The fair values reported are subject to various risk including changes in the equity markets, general economic conditions, and the financial performance of the companies. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the fair value of investment securities, it is possible that the amounts reported in the accompanying financial statements could change materially in the near term.

The Fund generally invests in common securities, preferred securities, convertible and nonconvertible debt securities, and warrants. These securities may be unregistered and thinly-to-moderately traded. Generally, the Fund negotiates registration rights at the time of purchase and the portfolio companies are required to register the shares within a designated period, and the cost of registration is borne by the portfolio company.

RENN Fund, Inc.
Notes to Financial Statements
December 31, 2014

Note 5 Valuation of Investments (continued)

On a weekly basis, RENN Group prepares a valuation to determine fair value of the investments of the Fund. The Board of Directors approves the valuation on a quarterly basis. Interim board involvement may occur if material issues arise before quarter end. The valuation principles are described below.

Unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation. Thinly traded unrestricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price on the date of valuation, less a marketability discount as determined appropriate by the Fund Managers and approved by the Board of Directors.

Restricted common stock of companies listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued based on the quoted price for an otherwise identical unrestricted security of the same issuer that trades in a public market, adjusted to reflect the effect of any significant restrictions.

The unlisted preferred stock of companies with common stock listed on an exchange, such as the NYSE or NASDAQ, or in the over-the-counter market is valued at the closing price of the common stock into which the preferred stock is convertible on the date of valuation.

Debt securities are valued at fair value. The Fund considers, among other things, whether a debt issuer is in default or bankruptcy. It also considers the underlying collateral. Fair value is generally determined to be the greater of the face value of the debt or the market value of the underlying common stock into which the instrument may be converted.

The unlisted in-the-money options or warrants of companies with the underlying common stock listed on an exchange, NASDAQ or in the over-the-counter market are valued at fair value (the positive difference between the closing price of the underlying common stock and the strike price of the warrant or option). An out-of-the money warrant or option has no value; thus the Fund assigns no value to it.

Investments in privately held entities are valued at fair value. If there is no independent and objective pricing authority (i.e., a public market) for such investments, fair value is based on the latest sale of equity securities to independent third parties. If a private entity does not have an independent value established over an extended period of time, then the Investment Adviser will determine fair value on the basis of appraisal procedures established in good faith and approved by the Board of Directors.

The Fund follows the provisions of Accounting Standards Codification ASC 820, *Fair Value Measurements*, under which the Fund has established a fair value hierarchy that prioritizes the sources (“inputs”) used to measure fair value into three broad levels: inputs based on quoted market prices in active markets (Level 1 inputs); observable inputs based on corroboration with available market data (Level 2 inputs); and unobservable inputs based on uncorroborated market data or a reporting entity’s own assumptions (Level 3 inputs).

Note 5 Valuation of Investments, continued

The following table shows a summary of investments measured at fair value on a recurring basis classified under the appropriate level of fair value hierarchy as of December 31, 2014:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

See page 2, Schedule of Investments for a breakdown of the valuation by industry type.

As of December 31, 2014, no portfolio companies were classified as Level 3.

Note 6 Income Taxes

During 2014 management has followed a policy of distributing all of the Fund's taxable investment income and realized capital gains within the defined period under the IRC to ensure that any federal income tax on such income, if any, is paid by the Fund's shareholders. During the year ended December 31, 2014, there was no taxable investment income or net realized long-term capital gains, and therefore no declaration of any distributions. As of December 31, 2014, the Fund had a tax loss carryforward of \$9,002,307 for the year ended December 31, 2014, which is available to offset future realized gains for a period of up to three years, and a tax loss carry forward of \$97,082, which is available to offset future realized capital gains for a period of up to four years. In addition the Fund has a tax loss carryforward of \$15,847,746 as of December 31, 2014, which is available to offset future realized capital gains, with no expiration on the tax benefits under the Regulated Investment Company Modernization Act of 2010. The Fund had no undistributed net income as of December 31, 2014. Tax returns filed within the prior three years are subject to examination by federal and state tax authorities.

^(a) Total investment return is calculated by comparing the common stock price on the first day of the period to the price on the last day of the period. The calculation also assumes reinvestment of distributions at actual prices pursuant to the Fund's dividend reinvestment plan and reflects taxes paid by the Fund for deemed distributions. Total investment return calculated for a period of less than one year is not annualized.

^(b) Average net assets have been computed based on monthly valuations.

Note 8 Related Party Transactions

In 2009 Russell Cleveland received options to purchase 100,000 common shares of AnchorFree, Inc., at \$0.3971 per share, as compensation for financial advisory services provided to AnchorFree, Inc. prior to Mr. Cleveland's joining the board, and will expire three months after he ceases to be member of the board. In accordance with the existing agreement between the Fund and Mr. Cleveland, the Fund will receive 15,023 shares at no cost when the options are exercised. Mr. Cleveland disclaims any beneficial ownership in the Fund's portion.

There were no similar related party transactions during 2014.

Report of Independent Registered Public Accounting Firm

To the Shareholders and
Board of Directors of
RENN Fund, Inc.

We have audited the accompanying statement of assets and liabilities of RENN Fund, Inc. (the “Fund”), including the schedule of investments, as of December 31, 2014, and the related statements of operations and cash flows for the year then ended, and the statement of changes in net assets and the financial highlights for the years ended December 31, 2014 and 2013. These financial statements and financial highlights are the responsibility of the Fund’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2014, by correspondence with the custodians and brokers. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of RENN Fund, Inc. as of December 31, 2014, and the results of its operations and its cash flows for the year then ended, and the changes in its net assets and the financial highlights for the years ended December 31, 2014 and 2013, in conformity with accounting principles generally accepted in the United States of America.

(1) "Fund complex" defined as U.S registered investment companies with the same adviser. There are no other such entities to group with the Fund.

(2) Russell Cleveland is a beneficiary of a family trust which owns more than 5% of the Fund. He is also the President, sole director, and owner of RENN Capital Group, Inc., the Fund's investment adviser.

Board Member Attributes. The following is a summary of some of the experience, skills and attributes that led to the conclusion that each member should serve as a director for the Fund:

Russell Cleveland, the Chairman, brings more than 50 years of experience in the investment business, 40 years of which were spent as a portfolio manager specializing in multiple classes of securities of small private and publicly traded companies. He is a graduate of the Wharton School of Business and has appeared on CNBC numerous times as a small cap analyst. He has been a Director of the Fund since its inception.

Charles C. Pierce, Jr. is a retired Vice Chairman of Dain Rauscher, Inc., former President of the Texas Stock and Bond Dealers Association, and former Chairman of the South Central District of the Securities Industry Association covering Texas, Oklahoma, New Mexico, Kansas, and Colorado, and has been a Director of the Fund since 2002.

J. Philip McCormick has been an independent investor and corporate adviser since 1999. He is Senior Adviser to Stonehenge Growth Capital Company. Prior to 1999 he practiced public accounting for 26 years (1965-1991) and was a senior financial officer in three public companies (1991-1998). He has been a Director of the Fund since 2006.

Ernest C. Hill was an Assistant Professor of Finance with Southern Methodist University and an Associate Director of the Southwestern Graduate School of Banking, and was instrumental in the formation of an Entrepreneurial Seminar for the Southern Methodist School of Business. He was awarded a Ford Fellowship to the Stanford School of Business, where he received an MBA with honors in Investment and Finance. He specializes in computer-aided investment analysis and administrative procedures. Mr. Hill has been a Director of the Fund since 1994.

Additional information concerning the directors is included in the Statement of Additional Information contained in the N-2 registration statement filed with the SEC by the Fund. This information may be obtained without charge by calling (214) 891-8294.

Consideration of Diversity in Board Membership. In selecting and re-electing board members, consideration is given to the presence on the Board of a broad spectrum of business acumen and personal perspectives. The Fund has members who bring experience in banking and finance, executive management of corporations, directorship, and success with entrepreneurial challenges, among others. The Fund intends to keep a diversity of skills and attitudes in its board makeup and assesses those qualities in any present director or one who is being considered for nomination to the Board.

Board Oversight of Risk. The Board endeavors to forestall risk by its development of fundamental investment policies for approval by the shareholders and other policies which are more flexible for the Adviser's activities on the Fund's behalf. The Board is also involved in the assessment and monitoring of risk by virtue of its review of the Fund's investment activities, noting whether the portfolio has industry or geographic susceptibilities, the appointment of the Adviser's portfolio managers to directorships on portfolio boards when indicated, and by review of the financial particulars of the Fund, including any occasions of debt. It also considers the strength of the Adviser's staff to provide uninterrupted investment and administrative services to the Fund.

Board Leadership Structure. The Board has determined that Mr. Cleveland's dual role as the Fund's Chief Executive Officer and Chairman of the Board is appropriate for this Fund. Mr. Cleveland is an "interested person" in the Fund, giving him an additional incentive for its good performance and protection. He has foregone compensation from the Fund for both roles except for his indirect benefit from the Adviser's management fee based on growth of the Fund's asset values and the growth in the market value of the Fund's stock that he owns indirectly. The appointment of a separate person serving as chairman would likely require the Fund to incur additional fee expense for the position, which the Board feels is unwarranted. The Board feels that its considerable oversight of risk fuses well with the Board's leadership structure.

Quarterly Reports

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission ("SEC") for the first and third quarters of each fiscal year on Form N-Q. A copy of each such Form N-Q is available on the SEC's website at www.sec.gov. Such forms may also be reviewed and copied at the SEC Public Reference Room in Washington, D.C., and you may call the Public Reference Room at 1-800-SEC-0330 for information on its hours, etc.

Proxy Voting Policies and Procedures

A description of the policies and procedures that the Fund uses to determine how to vote proxies relating to portfolio securities is available, without charge, upon request by calling (800) 687-3863. You may also obtain the description on the Fund's website at www.rencapital.com.

Portfolio Proxy Voting Records

The Fund's record of proxy voting regarding portfolio securities is presented each year for the 12-month period ended June 30. It is filed with the SEC on Form N-PX and is available without charge by calling (214) 891-8294 and on the SEC's website at www.sec.gov.

Dividend Reinvestment Plan

Pursuant to the Fund's Dividend Reinvestment and Cash Purchase Plan (the "Plan"), a stockholder whose shares are registered in his or her own name will be deemed to have elected to have all dividends and distributions automatically reinvested in Fund shares unless he or she elects otherwise on a current basis. Shareholders whose shares are held in nominee names will likewise be treated as having elected to have their dividends and distributions reinvested. You may elect to receive cash distributions, net of withholding tax, by requesting an election form from the Fund's Plan Agent, American Stock Transfer & Trust Co. You may terminate participation by notifying the Plan Agent in writing. If notice is received by the Plan Agent not less than 10 days prior to any dividend or distribution it will be effective immediately. Information regarding income tax consequences should be directed to your tax consultant – the Plan will furnish information by January 31 following the year of distribution as to the category of income that the distributions represent. Your questions regarding the Plan should be directed to the Fund's Plan Agent, American Stock Transfer & Trust Company, LLC, whose telephone number is (718) 921-8200 x6856 and whose address is 6201 15th Avenue, Brooklyn, NY 11219-5498.
